

Dear Parents/Guardians,

I am so excited to teach your son/daughter geometry this year at West Mesquite High School! We, your student and I, have a lot to accomplish and my behavior and academic expectations are very high for your child. I truly want this year to be a successful one in mathematics for everyone. Please read the Student Expectation Question/Answer handout that your child received in class. They should keep this handout in their folder all year long.

Please encourage your child to be in attendance each day, to be on time to class, and to participate for the entire class period. Also please encourage them to come prepared for class, with pencils and paper each day and to have their homework completed to the best of their ability.

If your child is having trouble with my class or was absent, I've made a geometry website with videos and lessons on it that I will be updating throughout the year, www.doucehouse.com. It has a calendar for each six weeks so you can keep track of what they are learning throughout the year.

I am available every Tuesday and Thursday after school for tutoring and also by appointment if these times are bad for your child. There is a 5 o'clock bus for students who can't get a ride home after tutoring. If your student is failing and/or failed the Mathematics STAAR/TAKS test last year, I'm going to issue mandatory tutoring throughout the year on Tuesdays and Thursdays until 5pm. If your son/daughter can't come to mandatory tutoring for family matters, personal issues, etc. please e-mail me or send me a note through your child to me.

Communication with parents is one of the keys to success, so I'll send out important information and dates using the twitter account (@Mr_Douce) I sent up for your child's geometry class. You can e-mail me any time if you have any questions or concerns. I am looking forward to working with you and your child this year. It's going to be a great year, so let's get it started on a positive note!

Mr. Douce
